UNIVERSITY BUILDINGS, RAMNA, DACCA, the 10th April 1926.

CALCUTTA UNIVERSITY.

NOTIFICATION No. MISC. R. 12.

It is hereby notified for general information that, under section 25, sub-section (1) of the Indian Universities Act, 1904 (VIII of 1904), as amended by the Calcutta University Act, 1921 (VII of 1921), the Government of Bengal have sanctioned the following changes in the Regulations :-

The following clause has been inserted in Chapter XI, section 3, after existing clause (c):

"Teachers in Colleges whose attainments specially qualify them for Post-Graduate work, and who shall be recognised by the University as Extra-Mural Lecturers.' and the following explanatory clause has been added to follow section 3:

"Extra-Mural lecturers shall be recommended annually by their Colleges for recognition by the University. Such recommendations, along with a statement, showing, at the time of the first recognition, their qualifications, and outlining the proposed course of lectures for the ensuing session, shall reach the University not later than February 15th in each year. Such proposals shall be placed before the Board of Higher Studies and the Executive Committee concerned, the selection to be finally made by the Board of Appoint-Lecturers thus recognised by the University shall undertake to deliver in their own Colleges a minimum of twenty lectures in each session, and such lectures shall be opened both to the Post Graduate students of the College concerned and to such other Post-Graduate students as may desire to attend. Attendance at such lectures shall not be obligatory but shall be reckoned as alternative to not more than twenty per cent. of the total number of lectures delivered by the University Professors or Lecturers appointed under section 3(a), (b), (c) and (d) and to this extent shall be regarded as constituting part of the regular course of study qualifying for admission to the M.A. or M. Sc. Examinations. The question of remuneration of such lecturer and tuition fees to be paid by students who attend such lectures shall be settled by the Executive Committee in consultation with the Colleges."

J. C. GHOSH, Registrar.

The revised scale of fees will take effect from the session 1926-27 and will apply only to the new entrants.

MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

- 1. Two classes of students are admitted for study in the College :-
 - (a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam, Manipur State and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

- 2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.
- 3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on 5th October and closes on the 31st March.
- 4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office on or before the 25th May, together with a fee of Rs. 4, which will not be refunded on any account except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province. The candidate from Manipur will be nominated by the Manipur State.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list:—

| 12 Spring and market many | Company of the Second | | | Rs. |
|---------------------------|-----------------------------|-------|--|-----|
| Admission fee | | | | 25 |
| Fees for Summer term | 7 - Cont. 1800 | ••• | 400 c 50 4 4 4 45 | 100 |
| Athletic Club fee | 11 s.a. T. 4.4 (5.5) | | 1. (1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1 | 4 |
| | | | | |
| | | Total | | 129 |

^{5.} The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, six candidates by the Inspector-General, Civil Hospitals, Assam, three candidates of the Dacca University and three candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. One candidate will be nominated by the Manipur State. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

- 6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.
- (b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.
- 7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.
- 8. All regular students must pay an annual fee of Rs. 200 in two instalments, viz., Rs. 100 for the Summer term and Rs. 100 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.
- 9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.
 - 10. Female students are not liable to pay the Athletic Club fee.
- 11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 100 for the whole session in one instalment within the time prescribed.
- 12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment:—

| | | | | | Rs. |
|-------------------|----------|---------------|----------------|--------------|--------|
| For one subject | | | | | 25 |
| For two subjects | | | | | 50 |
| For three or more | subjects | Valence BATTE | cate laver, to | est argentia | 75 |

- 13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.
- 14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.
- 15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.
- 16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.
- 17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

- 18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.
- 19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 200 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as regular students.
 - 20. The following is the curriculum of the College: -

Regular students.

First year (one Summer term and one Winter term).

Physics, Chemistry, Botany, Zoology, and Practical classes in all these subjects; Test examination in all the subjects will be held during the course of the first year classes, and the students who fail in these examinations will not be sent up for the Preliminary Scientific M. B. Examination. Those students who are sent up for the Preliminary Scientific M. B. Examination but fail twice in one year in the said examination will be transferred to the Membership course of the State Medical Faculty of Bengal after the second chance.

N.B.—The first year's course also includes Anatomy in which there will be a class test examination during the course, upon which will depend the promotion of a student to the second year class.

Second year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Practical Pharmacy and Dissections to be followed by examinations for award of College scholarships with class examination during the course. Students failing to pass the class examination in Anatomy will not be eligible for any scholarship and will not be promoted to the third year class.

Third year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Organic Chemistry, Dissections and Practical classes in Physiology and Organic Chemistry with the usual class examination in the above subjects for scholarships, medals and certificates of honour of the College. Students who fail four times in two years at the First M. B. Examination will not be allowed to go on with the M. B. course, but they may take up the Membership course of the State Medical Faculty of Bengal.

N.B.—Both in Preliminary Scientific M.B. and First M.B. Examinations "failure" means and includes "failure to pass" and "failure to appear".

Fourth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Pathology, Medical Jurisprudence, Hygiene, Dental Surgery, Hospital Practice (12 months), Clinical Methods and 20 Demonstrations, Practical Surgery and Bandaging and 30 Demonstrations, with class examinations at intervals in all the subjects.

Fifth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Hygiene, Ophthalmic Surgery, Operative Surgery, Mental Disease, Practical Pathology and Bacteriology, Practical Midwifery and 20 Demonstrations, Hospital Practice (12 months) with class examinations at intervals in all the subjects.

Sixth year (one Summer term and one Winter term).

Medicine, Special Classes and Hospital Practice (12 months), to be followed by the Final M.B. Examination.

- 21. The following are the scholarships and rewards obtainable by students :-
 - (a) Ten College scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the result of the Test and Scholarship examinations at the end of the first year class, provided such students also pass the Preliminary Scientific M. B. Examination of the Calcutta University at the first attempt.
 - (b) Ten Collège scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the results of the second year's Scholarship and Test examinations.
 - (c) Ten scholarships of Rs. 12 each, tenable for three years, together with free tuition, are awarded to ten students on the results of the Scholarship and Test examinations of the third year class, provided such students also pass the First M. B. Examination of the Calcutta University.

Note.—Only students of Bengal are allowed to compete for these scholarships. Forty percent, is the pass mark of the class examination, but 60 per cent, in aggregate must be obtained by a candidate to be eligible for a scholarship. All scholarships are granted subject to good conduct and satisfactory progress.

- (d) Six Government scholarships (one for each year) of the value of Rs. 25 will be awarded to the female students of the regular class who do not get the Dufferin or other scholarship.
- (e) Mohsin scholarships-
 - Six stipends of the value of Rs. 15 each, tenable in the Medical College, Calcutta, are annually awarded by the Director of Public Instruction from the Mohsin Endowment Fund to deserving poor Bengali Muhammadan students in the following manner:—

Two scholarships on admission, tenable for one year only, on the result of the I. Sc. Examination.

Two scholarships, tenable for two years, on the result of the Preliminary Scientific M. B. Examination.

Two scholarships, tenable for three years, on the result of the First M. B. Examination.

- (f) A limited number of stipends will be granted to Muhammadan students of straitened circumstances who must prove to the satisfaction of the Principal that they are poor deserving Bengali Muhammadan students.
- 22. If on account of the death, resignation or dismissal of any College scholar, a scholarship falls vacant, such scholarship will be awarded to the next best student in the list of the last Scholarship examination, or to such other student as the Principal may consider fit.

- 23. Holders of the College scholarships, any other Government scholarship or Trust Funds scholarships administered by Government are not eligible for the Durga Charan Funds Scholarship. Similarly, a student already holding a scholarship, either on the Laha Scholarship. Similarly, a student already by Government, is not eligible to compete result of the University examination or granted by Government, is not eligible to compete for the College scholarships.
- 24. Regular students, who at any time are referred for a second year of study in all the subjects of one curriculum, are thereby rendered ineligible for any of the stipendiary scholarships awarded by the Government of Bengal. They are, however, eligible for the scholarships awarded by the Government of Bengal. They are, however, eligible for the scholarships and class prizes and medals and certificates of honour of the College.
- 25. Certificates of honour, to the number of three in each subject, may be awarded by the Professor, subject to the sanction of the Principal, to such students who have not obtained the medal but are deemed worthy of it.

Politics, History, English and Mathematics, each subject to consist of two papers of the Pass B. A. standard.

B. Com. graduates will have the same privileges as Pass B. A. graduates for pursuing the B. L. course.

Detailed Syllabus.

... One paper. I. Elements of Economics

Fundamental facts and principles regarding consumption, production, exchange and distribution.

... One paper II. Economic Geography

Its meaning, its relation to other Geographies, its controlling factors.

The bearing of Physical Geography on Commercial Geography, Political Geography as the basis of various types of civilization and a determining factor of natural and economic development.

Man and his environment, zones of climate, factors of climate, their controlling effects,

nature and man at work

The bearing of Political Geography on Commercial Geography, Man and Civilization, its stages—Man, a modifying agent in Production, Distribution and Exchange, his occupations, localization of industries, growth of towns, trade centres and trade routes.

Man in relation to Consumption and Conservation, Commercial products, Acclimatisation, Associative industries, their distribution, Influence of natural phenomena, rivers, mountains, deserts, general relief.

Region, its definition, a detailed study of regions.

III. Business organization

... One paper.

The constitution of business houses; combination in business; partnerships and companies; direction and control; office routine, filing, indexing, etc.; industrial efficiency; secretariat work; meetings, agenda and minutes; advertising; the stock exchange. **企业**产业等

IV. Trade and Transport

... One paper.

Evolution of trade, its classifying factors, wholesale and retail, intermediaries, their importance.

A brief history of Commerce-ancient, mediaeval and modern;

Home and foreign trade, theory of international trade, foreign exchange.

The organization of trade, financing methods, foreign remittances, various documents, packing and shipment tariffs.

Evolution of transport; methods of transport; railways; fixing of rates and fares;

state control; sea transport.

V. Commercial correspondence

... One paper.

Composition; precis writing; indexing.

Business letters; reports; circulars; memoranda; terms of agreement; documents used in trade, commerce and finance.

Advertising and representation of statistical figures by graphs.

VI. Commercial Law ...

... One paper.

The Indian law relating to contracts, sale of goods, agencies, partnerships, and companies, the law of carriage of goods by land and sea, negotiable instruments, insurance insolvency.

VII. Currency and Banking

... One paper.

The functions of money, legal tender, standard and token money, variations in the purchasing power of money, systems of currency, the English banking system, a brief description of the other systems.

The money market, bill brokers, the stock exchanges, the foreign exchanges, financial

The Indian Currency and Banking System.

The Banking Law and-Practice.

VIII. Accountancy

... Two papers.

First paper-General:

The principles of the double entry; the use of subsidiary books; the trial balance; the preparation of the trading and profit and loss accounts; the balance-sheet of general merchants; the accounts of partnerships and companies; bills of exchange; consignments;

Second paper—Special:

Accounts of insurance companies, banks, mining companies, charitable institutions and other non-trading concerns; partnership accounts including the treatment of goodwill; reorganisation and reconstruction of companies; branch accounts, including foreign branches; manufacturing accounts and costs; depreciation reserves, and sinking funds; self-balancing ledgers; bankruptcy; the double account system; hire-purchase agreements; columnar book-keeping.

DEPARTMENT OF MATHEMATICS.

I .- ORDINARY B. A. AND B.Sc. DEGREES.

(Examinations to be held in 1928 and after.)

Three Papers.

Paper I .- Plane Trigonometry and Co-ordinate Geometry.

Paper II .- Differential and Integral Calculus and Differential Equations.

Paper III.—Hydrostatics and Astronomy.

Detailed Syllabus.

Co-ordinate Geometry-

Spicer and Pegler

Carter

Batliboi

A. Co-ordinate, distances between two points and other simple formulæ.

B. Straight lines—Equations, distance of a point from a given line, angle between two straight lines, bisectors of the angles between two straight lines, pairs of straight

C. Circle-equations, tangents, normals, poles and polars. Condition of orthogonality of two circles.

 D. Parabola—equations, tangents, normals, poles and polars.
 E. Ellipse—equation, tangents, normals, poles and polars, auxiliary circle, conjugate diameters, asymptotes.

F. Hyperbola-equation, tangents, normals, poles and polars conjugate diameters asymptotes.

Books recommended:

Loney Molony ... Co-ordinate Geometry.
... Analytical Geometry.

Trigonometry :-

Simple properties of triangles and quadrilaterals. Inverse functions. Simple Trigonometrical equations. Demoivre's Theorem and simple applications, expansions of sine and cosine and applications. Exponential values of sines and cosines and properties of complex quantities and their logarithms; Gregory's series and applications. Summation of simple trigonometrical series.

Books recommended:

Todhunter Loney

... Plane Trigonometry. ... Plane Trigonometry.

Differential Calculus-

1. Variables, constants, functions, characteristics of a function of one variable

graphical representation of functions.

2. Definition of a limit, notation, distinction between limit and value. Limits as $x \to 0$, limits and limit and value. Limits as $x \to 0$, limits as $x \to 0$, limits and limit and value. Limits as $x \to 0$, limits as $x \to 0$

tions. Differentiation of a sum, a product and a quotient. Differentiation of a function of a function. Differentiation of standard forms. Differentiation of implicit functions. Partial differentiation. Euler's Theorem.

4. Successive derivatives. The *nth* derivatives of some particular functions. Successive derivatives of a product. Leibnitz's Theorem.

5. Expansions. Maclaurin's and Taylor's Theorems.
6. Undetermined forms.
7. Inferences from the sign of the derived function. Maximum and minimum

values of functions of one variable. Points of inflexion.

8. Equations of tangent and normal. Cartesian subtangent, subnormal, etc.

Polar co-ordinates. Angle between radius vector and tangent. Polar subtangent.

Polar subnormal, etc. Pedal equation, pedal curves. Positive pedals and negative Polar subnormal, etc. pedals.

9. Asymptotes of a curve in Cartesian co-ordinates.
10. Measure of curvature. Formulae for the radius of curvature in Cartesian co-ordinates, in Polar co-ordinates, in terms of p and r. Curvature at origin.

Book recommended:

Edwards

... Differential Calculus for Beginners.

Integral Calculus-

1. Integral. General integral. Definite and Indefinite integrals. General Laws obeyed by the integrating symbol. Standard forms. Simple extensions.

2. Methods of integration-

(a) Method of substitution.(b) Method of integration by parts.

(c) Simple cases of the Method of reduction formulae.

(d) Method of decomposition of rational fractions into partial fractions (Edward's Integral Calculus for Beginners, Chapter V).

3. Definite Integrals. Problem of areas. Definite integral defined as the limit of a sum. Fundamental theorem of the Integral Calculus. General properties of definite integrals. Simple cases where the function f(x) or the limits of integration become

infinite.

4. Definition of area. Formulae for an area in Cartesian and Polar co-ordinates.

Areas of curves which can be easily traced. Formulae for the length of an arc of a curve in Cartesian and Polar co-ordinates. Simple cases of rectification of curved lines.

Simple cases of volumes and surfaces of revolution.

5. Differential equations. Formation of differential equations, Equations of the first order and first degree. Methods of solution. Variables separable. Linear equations of the first order. Homogeneous equations, Exact equations. Equations of first order but not of first degree. Linear differential equations with constant co-efficients with right-hand number equal to 0.

Book recommended:

Edwards

... Integral Calculus for Beginners.

Hydrostatics-

Definitions. Nature and properties of fluid pressure. Density and specific gravity of a mixture. Determination of the pressure of a heavy liquid in simple cases. Centre of pressure. Conditions of equilibrium and stability of equilibrium of a floating body. Metacentre. Properties of elastic fluids and determination of pressure. Measurements of heights by barometers. Faulty barometers. Pressure of a mixture of gases. Determination of specific gravities. Description of the barometers, the common pump, the force pump, the diving bell and the air pump (Smeaton's).

Book recommended:

Loney

... Hydrostatics.

Astronomy-

Fundamental Definitions, The Celestial Sphere. The Earth. Latitude and Longitude. Rotation of the Earth. The Transit Instrument, Corrections for various Errors. The Meridian Circle The Equatorial, Refraction, The Sun. Sun-spots. The motion of the planets. Parallax (Diurnal and Annual). Determination of the first point of Aries, Determination of the obliquity of the Ecliptic to the Equator. Precession. Nutation and Aberration, The Moon, Lunar and Solar Eclipses. Frequency of the Eclipses Equation of time. Reduction of time. The Sun-dial. The Sextant. Determination of Latitude and Longitude by simple methods. The fixed stars.

Books recommended:

Mullick ... Astronomy.

Parker

Ditto.

II .- HONOURS SCHOOL OF MATHEMATICS (B. A. AND B. Sc. DEGREES).

(Examinations to be held in 1929 and after.)

Eight papers on Mathematics.

Paper I.—Higher Algebra and Theory of Equations.

Paper II.—Higher Plane Trigonometry, Spherical Trigonometry and Vectors.

Paper III.—Co-ordinate and Solid Geometry.

Paper IV.—Mathematical Analysis (Differential and Integral Calculus).

Paper V.-Mathematical Analysis (Differential Equations and Functions of a Complex Variable).

Paper V.I.—Analytical Statics and Hydrostatics.

Paper VII.—Elementary Rigid Dynamics.

Paper VIII.—Dynamics of a Particle and Astronomy.

Subsidiary Subjects.

(a) For the B.A. Degree.

Any combination of two subjects allowed for the ordinary degree except the following combinations :-

- (i) Philosophy and Economics.
- (ii) Politics and Sanskrit or Persian or Urdu or Arabic or Islamic studies.

The combination selected must be subject to the approval of the head of the department.

(b) For the B.Sc. Degree.

Physics and Chemistry.

Detailed Syllabuses.

Algebra-

1. Inequalities.

2. Infinite Series. Series of Real constant terms. General properties. Tests for convergence. Absolutely convergent series. Conditionally convergent series. Alternating series. Product of an infinite number of factors.

 Continued fractions. Simple continued fractions.
 Summation of series. Recurring series.
 Determinants. General definition of a determinant. Properties of determinant. Multiplication of determinants. Reciprocal determinants. Solution of a system of Linear Equations.

Books recommended:

1. Higher Algebra

Hall and Knight. C. Smith.

Higher Algebra

3. A Course in Pure Mathematics

G. H. Hardy. (Arts. 76-78, and Chapter VIII.)

4. Mathematical Analysis, Vol. I

E. Goursat and Hedrick. (Chapter VIII.)

Theory of Equations-

General Properties of Polynomials. Derived functions. Graphic representation

of a Polynomial.

2. General Properties of Equations:-Theorems relating to the real roots of an equation. Existence of a root in the general equation. Imaginary roots. Theorem determining the number of roots of an equation. Equal roots. Descarte's Rule of Signs.

3. Relations between the roots and co-efficients of equations, with application to

symmetric functions of the roots.

4. Transformation of Equations:—Roots with signs changed. Roots multiplied by a given quantity. Reciprocal roots and reciprocal equations. To increase or diminish the roots by a given quantity. Homographic transformation. Equation of the squared differences of a cubic. Criterion of the nature of the roots of a cubic.

5. Solution of Reciprocal and Binomial Equations.
6. Algebraic solution of the Cubic and the Biquadratic. Equation of the squared differences of a biquadratic. Criterion of the nature of the roots of a biquadratic.
7. Properties of the derived functions. Graphic representation of the derived function. Rolle's Theorem. Determination of multiple roots.

8 Symmetric functions of the roots:-Newton's Theorem on the sums of powers of roots. Order and weight of symmetric functions. Homogeneous products,

9. Limits of the roots of equations.

10. Separation of the roots of an equation. Sturm's Theorem and application.

11. Solution of Numerical equations. Newton's method of divisors. Newton's method of approximation. Horner's method of solving numerical equations. Contraction of Horner's Process.

Book recommended:

Burnside and Panton

... Theory of Equations, Vol. I.

Plane Trigonometry-

Same syllabus as for the ordinary degree. Fuller and more detailed study of the course will be expected.

Spherical Trigonometry-

1. Spherical triangles. Important geometrical properties.

Formulae connecting the sides and angles of a spherical triangle.

Solution of right-angled and oblique-angled spherical triangles.

Book recommended:

McLeland and Preston

... Spherical Trigonometry, Part I.

Vectors-

Addition and subtraction of Vectors. Condition that three vectors terminate in the same line. Condition that the extremities of four vectors lie in a plane. Mean point. Formulae relating to the product of two or more vectors. Differentiation of vectors. Line and surface integrals of vectors. Simple vector equations.

Book recommended:

Coffin

... Vector Analysis.

Conic Sections-

1. Co-ordinates: Distance between two points, section-formulae. Areas of a triangle

an | quadrilateral in terms of the co-ordinates of angular points.

2. Straight line: Special forms of the equations of a straight line. Angle between two straight lines. Distance of a point from a line. Angle bisectors. Homogeneous

equations. Equation referred to oblique axes.

3. Change of axes: Anharmonic or cross ratios. Involution.

4. The Circle: Equation of a circle. Equation of a tangent and a normal at a given point. Pole and Polar. Orthogonal circles. Radical axis of two circles. Co-axal circles.

The parabola: Equation of a parabola. The tangent. The normal. Pole and 5.

6. The ellipse: Equation of the ellipse. Equation of the tangent, and normal Pole and Polar. Director circle. Auxiliary circles. Eccentric angle. Diameter. Conjugate Diameters.

The Hyperbola: The equation of an hyperbola. Conjugate diameters. 7. The Hyperbola: The equation of an hyperbola. Conjugate diameters. Asymptots. Equation of tangent and normal at a point. The equation of an hyperbola when referred to its asymptotes as axes of co-ordinates. Rectangular Hyperbola.

8. Polar equation of a conic, the focus being the pole: Polar equation of the tangent and normal at any point of a conic, the focus being the pole. Pole and Polar.

9. General equation of the second degree: Reduction to the standard form. Director Circle. Four foci of a conic; eccentricities of a conic. Similar conics.

10. System of conics: One conic through five points. Conics through four points. Confocal conics. Contract of conics. Osculating conics.

Books recommended:

Askwith

... Analytical Geometry of two Dimensions. ... Conic Sections.

Smith

Solid Geometry-

A. Co-ordinates of a point; the three types of co-ordinates; distance between two

points; co-ordinates of a point dividing a finite line in a given ratio; projections.

B. Planes, equations, angle between two planes. Straight lines; equations, shortest distance between two straight lines, angle between two straight lines, distance of a point from a given point, triangles, tetrahedra.

Conicoids: General properties, classification, determination of centre and axes. C. Conicoids: General properties, classification, determined by the conicoids of two sheets D. Spheres, ellipsoids, hyperboloid of one sheet, hyperboloid of two sheets

paraboloids, cones.

E. Plane sections of a conicoid: determination of axes and area of plane sections of a conicoid. F. Circular sections of ellipsoids, hyperboloids of one sheet, hyperboloids of two

sheets, paraboloids.

G. Generating lines: existence, properties, and equations.
H. Confocal conicoids. Elementary theorems relating to curves in space, indicatrix and curvature.

Differential Calculus-

Limits, continuity, differential co-efficients, simple examples of discontinuity and non-existence of limits; calculations of derivatives and successive derivatives including Leibnitz's Theorem; Taylor's and Maclaurin's Theorems and their extensions. Lagrange's Theorem on the limits of Taylor's Theorem, including simple examples on the failure of Taylor's Theorem; Lagrange's Theorem on expansion; partial differential including Euler's Theorems on homogeneous functions, differentials, change of variables, Jacobians; maxima and minima of one or more variables including Lagrange's method of undetermined multipliers; undetermined forms; tangents and normals (whole of Chapter VII of Edward's bigger book); curvature; finding of the asymptotes, double points, points of inflexion, evolutes and envelopes of curves; and tracing of easy curves.

Reference: Edward's bigger book for the major portions. Stress on the principles

and not on tricky questions.

Integral Calculus-

Integration. Elementary integrals. Integration by substitution. Integration by parts of rational fractions. Integration by successive reduction, by rationalization. Differentiation under the sign of integration. Integration under the sign of integration. Various methods of integration. Definite integrals. Areas in Cartesian and Polar co-ordinates. Areas of well-known curves. Area of a pedal curve. Area of the pedal of ellipse. Lengths of well-known curves. Volumes and surfaces of solids of revolution. Volumes by double integration. Dirichlet's Theorem. Transformation of multiple integrals. Stokes and Green's Theorem. Fourier's Theorem and applications. (Byerly—Fourier's Series and Spherical Harmonics, Chapter II.)

Diffierential equations-

Ordinary equations of the first order; finding of the singular solutions of ordinary equations of the first order and of degree higher than the first; trajectories; linear equations with constant coefficients and equations reducible to linear forms with constant coefficients; method of variation of parameters; total differential equations; partial differential equations of first order. Simple examples of solutions in series.

Reference: Murray's book.

Theory of Functions of a Complex Variable-

Definitions, addition, subtraction, multiplication and division of complex quantities with simple geometrical applications. Holomorphic function. Singularities. Conchy's Fundamental Theorem (without a discussion of the merits and demerits of different proofs) and Conchy's Residue Theorem with their applications to the evolution of easy definite integrals. Liouville's Theorem. Taylor's and Lauront's Theorems and their convergency, conformal representation; Stereographic and Mercator's Projections.

Books recommended:

Mac Robert

... Functions of a Complex Variable (chapters I-

VI).

Goursat and Hedrick

Mathematical Analysis, Vol. II, Part I (chap-

ters I and II).

A. General coplanar forces-reduction, conditions of equilibrium.

B. Graphical statics-force polygon, funicular polygon, their properties and applications.

C. Stability or instability of equilibrium.

Virtual work. D.

Centre of gravity of bodies.

F. Strings, homogeneous and heterogeneous, elastic and inelastic.

Books recommended:

Minchin Routh

Statics, Vol. I. Statics, Vol. I. ...

Loney

Statics.

... Hydrostatics-

Laws of fluid pressure; general conditions of equilibrium; uniformly rotating liquid (as if rigid); resultant pressure; centre of pressure; the equilibrium of a floating body; (as if rigid); resultant pressure; centre of pressure; the equilibrium of a hoating body; surface of buoyancy; positions of equilibrium and stability of equilibrium in the case of a homogeneous liquid; oscillations of floating bodies; Boyle's Law; Charles' Law; Mixture of gases; specific heats; adiabatic expansions; determination of heights by means of barometer; tension of flexible surfaces; tension and pressure; capillarity.

Book recommended:

Besant and Ramsey

... Hydromechanics, Part I.

Rigid Dynamics-

1. Moment of inertia; product of inertia; principal axes and moments. Equimomental systems.

2 D'Alembert's Principle for (1) finite forces, (2) impulsive forces. Principles of the independence of translational and rotational motions.

3. Motion of a rigid body rotating about a fixed axis. The Compound Pendulum. Impulsive motion.

4. Motion in two dimensions. Problems involving discontinuous frictional forces. Instantaneous Centre.

5. Motion in three dimensions. Moving axis. Instantaneous axis. Screw motion. Euler's Dynamical and Geometrical equations. General equations of motion under finite and impulsive forces

Principles of the conservation of momentum and energy. Applications.

6. Principles of the conservation of momentum and energy. Applications.
7. Lagrange's equations of motion (1) for finite forces, (2) for impulsive forces.
Method of undetermined multipliers applied to non-holonomous systems.
8. Lagrange's equations of small oscillations. Principal co-ordinates. Oscillations about steady motion. Rotating systems. Forced oscillations including effect of dissipative forces.

9. Hamilton's Principle. Principle of Least Action. Hamilton-Jacobi equation.

Books recommended:

Dynamics of a Particle and of Rigid Bodies. Loney Rigid Dynamics, Vol. I. Routh

Higher Mechanics. Lamb

Dynamics of a particle—

Fundamental Definitions and Principles. Motion in a straight line. Simple Harmonic motion. Composition of simple harmonic motion. Acceleration parallel to axes. Motion referred to polar co-ordinates Revolving axes. Central orbits. Apses. Stability of orbits. Kepler's Laws. Law of the inverse square. Planetary motion. Time of describing any orbit. Relations between the eccentric, true and mean anomalies. Disturbed elliptic motion under transverse, radial, tangential and normal impulses and other disturbing forces. Constrained motion, conservation of energy. The simple pendulum, Motion on a smooth or rough cycloid. Motion in a resisting medium. Varying mass. Small oscillations. Oscillations in a resisting medium and under periodic forces. Motion of a pendulum in a resisting medium. Motion in three dimensions. Accelerations in polar, cylindrical and curvilinear co-ordinates. Motion on a sphere, cone, cylinder and a surface of revolution. Moving axes.

The hodograph. Motion on a revolving curve.

Book recommende d:

Loney

Astronomy-

1. The Celestial sphere. The systems of co-ordinates.

2. The earth. Coordinates which determine position on the earth. Rotation of the earth.

3. The sun, The sun's path among the stars. Variations in the length of the day. The seasons. The ecliptic, Determination of the First Point of Aries Determination of the obliquity of the ecliptic. Transformation of co-ordinates.

4. The determination of position on the earth. Finding latitude and longitude by

observation.

5. Planets. Kepler's Laws. Form of the earth's orbit. Apparent motions of planets. The elements of their orbits. Stationary point and retrograde motion.

Time, Equation of time, Reduction and conversion of time. Finding time by 6. observation.

7. Problems connected with the Diurnal Motion. Time of rising and setting of a heavenly body. Twilight.

Astronomical refraction. General differential equations. Formulae for refrac-

tion of Simpson, Bradley and Cassini. Determination of refraction by observation.

9. Parallax. Parallax of a heavenly body, the earth considered spherical. Parallax in declination and hour-angle. Parallax determined by meridian observations. Annual parallax of stars. Parallax in latitude and longitude of a star. Effect of parallax on the

apparent position of star.

10. Aberration. Determination of constant of aberration. Aberration in latitude and longitude. Aberration in right ascension and declination. Effect of aberration on the apparent position of a star.

11. Precession and Nutation. Effects of precession. Precession in declination and right ascension. Nutation.

The Moon. Its orbit. Phases. Rotation. Harvest Moon. Eclipses.

13. Description of the principal Astronomical Instruments.

Statics-

System of forces in three dimensions; central axis, wrenches, screws, cylindroids, stability of equilibrium, maximum or minimum height of centre of gravity, stability of equilibrium of a heavy body resting on a fixed rough surface; strings in three dimensions, central forces, elastic strings; astatics.

Books recommended:

... Statics. Loney ... Statics, Vol. II. Routh

Theory of Potential-

Potential in general; Logarithmic and Newtonian potential functions; potential ard work, some characteristics of potential function, surface distribution, law of Culomb and Poisson; direct calculation of attractions and potentials of rods, discs, spheres, etc.; Gauss's, Laplace's and Poisson's Theorems including the question of validity of Poisson's equation; potential at a distant point, MacCullagh's Theorem, equipotential surfaces; potentials and attractions of homogeneous ellipsoids, elliptic cylinders and ellipsoidal shells; Ivory's and Maclaurin's Theorems; Legendre's Theorem for the potential of a solid shells; potentials and ellipsoidal shells; Ivory's and Maclaurin's Theorems; Legendre's Theorem for the potential of a solid shells. of revolution; Dirichlet's problem for the sphere; potential and stability; Earnshaw's Theorem; Green's Theorem, Green's equivalent layers; potential completely determined by its characteristic properties; uniqueness of solution. Method of inversion.

Books recommended:

Statics. Loney ... Statics, Volume II. Routh

Theory of vibrations-

(a) A short history of the subject.
(b) Fourier's series and Lagrangian equations of small oscillations in generalised co-ordinates. Dissipative forces.

co-ordinates. Dissipative forces.
(c) Simple Harmonic motions. Composition and resolution.
(d) Transverse vibrations of strings, equation of motion, finite string, string plucked, string struck by a blow, violin string, reflexion, forced vibration of a string. Waves on an unlimited string, peculiarities of the waves.
(e) Longitudinal vibrations and flexural vibrations of rods, (a) longitudinal vibrations—equation of motion, rod free at both ends, rod free at one and fixed at the other. (b) flexural vibrations of a bar—equation of motion har free experience.

the other, (b) flexural vibrations of a bar—equation of motion, bar free at both ends, bar clamped at both ends, bar supported at both ends, clamped supported bar, clamped free bar, supported free bar.

(f) Extensional and flexural vibrations of a circular ring.

(g) Vibrations of membranes—equation of motion, rectangular membrane, square

membrane, circular membrane, sectorial membrane.

(h) Vibrations of plates-equation of motion, boundary conditions, circular plate,

rectangular plate.

rectangular plate.

(i) Vibrations of air—equation of motion, waves, spherical waves, simple harmonic waves, sources, sinks, doublets; communications of vibrations to a gas, wave resulting from a given initial disturbance, waves due to the motions of solids through a gas, transmission of waves through an aperture, scattering of waves by an obstacle, reflexion, refractions, waves of finite amplitude, vibrations of air in tubes and resonators.

Books recommended :

Lamb

Higher Mechanics.

Lamb

Dynamical Theory of Sound. No.

Hydrodynamics-

The course is to be covered by Besant and Ramsey's Hydromechanics, Part II, Chapters I-IX, and Chapter X, Arts. 209-226.

Harmonic analysis-

The course is to be covered by Byerly-Fourier's Series and Spherical Harmonics, Chapter I and Chapters V-VIII.

Theory of tides and water waves-

Tidal Waves.

1. Short description of the Tides and Tidal Phenomena. Sense in which the phrase "Tidal Oscillations" is used.

2. Free waves in a uniform canal-Energy of a wave system. Artifice of steady motion.

 Effect of disturbing forces; free and forced oscillation in a finite canal.
 Analysis of the Tide-generating forces. Classification of the different species of tides. Equilibrium theory; Dynamical theory. Correction to the equilibrium

theory.

5. Canal theory of tides. Semi-diurnal and diurnal tides; fortnightly tides. Equatorial canal of finite length, lag of the tide.

6. Tidal oscillations in a canal of variable section.
7. Waves of finite amplitude.
8. Wave motion in two horizontal dimensions—oscillations of (1) a rectangular sheet, (2) a circular sheet of water.

9. Waves due to periodic local pressure.

10. Oscillations of a spherical sheet of water. Effect of mutual attraction of the liquid.

11. Tidal oscillations of a rotating plane sheet of water.

12. Tidal oscillations on a rotating globe.

13. Laplace's Kinetic Theory.

14. Tides of long period-Laplace's Solution-Darwin's solution.

15. Diurnal and semi-diurnal tides-Laplace's solution.

16. Hough's investigations.

17. Lag of the tides-spring and neap tides.

18. Effect of tidal friction on the length of the sidereal year.

Surface Waves.

1. Statement of the two dimensional problem-standing waves-progressive wavesenergy.

Artifice of steady motion.

3. Waves on the boundary between two currents.

4.

Theory of group velocity.

Cauchy-Poisson wave problem; waves due to an initial elevation or to a local 5. impulse.

6. Surface disturbance of a stream due to inequalities in the bed.

7. Waves due to a submerged cylinder. Waves due to a travelling disturbance.

9. Surface waves of finite height. 10. Gerstner's rotational waves.

Solitary waves.

12. Wave propagation in two horizontal dimensions.

13. Ship waves.

14. Standing waves in limited masses of water.

15. Oscillations of a liquid globe.

16. Capillary waves-waves on the common boundary of two currents.

17. Vibrations of a liquid globule.

DEPARTMENT OF PHYSICS.

B. Sc. (ORDINARY) DEGREE EXAMINATION, 1928.

First Year Course.

- I. Properties of Matter and Sound: Two lectures per week.
 - (a) Properties of Matter.

Laws of motion; Work, Power, and Energy; Units and Dimensions of Physical Quantities; Motion in straight and circular paths; Friction; Machines; Elasticity; Moments of Inertia (simple cases only); Sin ple Harmonic Motion; Pressure in liquids and gases; Archimedes' Principle; Specific gravities; Liquids in Motion; Capillary action.

Examinations-Five papers of three hours each and a practical examination for 12 hours.

PHYSICS FOR THE M. Sc. DEGREE EXAMINATION, 1928.

Two years' course for Ordinary Pass B. Sc. Students.

Light: Two lectures per week—July to March. Course.

Magnetism and Electricity. Covering the Honours B. Sc.—Two lectures per week-July to March.

Electrostatics: 12 lectures. Magnetism: 12 lectures.

Electromagnetic Theory: 24 lectures.

Modern Work: 12 lectures.

Laboratory Work, covering the whole courses: Not less than 20 hours per week.

The Preliminary M. Sc. Examination consists of two theoretical papers of four hours each and a two days' practical examination.

This examination is held at the end of the first year course.

Second Year Course.

Electron Theory: 12 lectures.

Ionisation and conduction through gases: 12 lectures.

Quantum Theory and Thermodynamics: Two hours per week, 24 lectures.

Radioactivity: 12 lectures.

X-Ray and High Frequency Spectra: 12 lectures.

Relativity: 12 lectures.

Photo-Electricity: 12 lectures. Atomic Structure: 12 lectures.

Modern Researches, including Spectroscopy: 12 lectures.

M. Sc.—One year's course for Honours B. Sc. Students of the Dacca UNIVERSITY.

The Honours B. Sc. students will read the second year M. Sc. course. Laboratory work in the second year M. Sc. course will consist of at least 20 hours per week.

FACULTY OF SCIENCE.

Physical Chemistry.

Theoretical-

Laws of chemical combination by weight and volume; Atomic theory and Avogadro's hypothesis; molecular weights of gases. Kinetic theory of gases.

Liquefaction of gases; viscosity and surface tension of liquids. Law of conservation of energy; energy changes in chemical transformations.

Second law of Thermodynamics; vaporisation of liquids and fusion of solids.

Osmosis; theory of solution; thermodynamic treatment of the properties of solutions. Laws of electrolysis; molecular conductivity of electrolytic solutions.

Transport number of ions; electrolytic dissociation theory.

Chemical changes in homogeneous systems :- Law of mass action ; reaction isochore ; velocity of mono and demolecular reactions; determination of the order of reaction, equilibrium in electrolytic solutions; theory of indicators. Chemical changes in heterogeneous systems:-Phase Rule; catalysis; colloidal

solutions. Technical gas reactions; manufacture of sulphur trioxide, ammonia, oxides of nitrogen, oxidation of ammonia to nitric acid, Deacon Process for the manufacture of chlorine, manufacture of formaldehyde.

Theory of galvanic cells; absolute value of single electrode potential; decomposition

potential; concentration and gas cells.

Determination of Avogadro's number. Structure of the atom. Radio-active transformations.

Practical work in the laboratory to cover the whole subject.

Books recommended as text-books for B. Sc. Honours in Physical Chemistry :

Organic Chemistry.

Theoretical-

A thorough knowledge of the following :-

Aliphatic saturated and unsaturated hydrocarbons and their derivatives, viz., haloid derivatives, alcohols, ethers, aldehydes, ketones, esters, acid chlorides, amides, amines, cyanogen compounds and sulphur compounds. Organo-metallic compounds of zinc and magnesium. Polyhydric alcohols and their oxidation products, carbohydrates, hydroxy and amino acids, aldehydic and ketonic acids, di-ketones, polybasic acids, and their

derivatives, purines.

Aromatic hydrocarbons and their derivatives, viz., haloid, nitro, amino, sulphonic acid and hydroxy derivatives; diazo and azo-compounds; aromatic alcohols, aldehydes, ketones, acids (including substituted acids), esters, acid chlorides, anhydrides, amides, quinone, multinuclear hydrocarbons, benzidine, di and tri-phenyl methanes and their derivatives, naphthalene and its derivatives, anthracene, anthraquinone, alzarin, indigo, phenanthrene; pyridine and quinoline and their derivatives; furfurance, thiophene, pyrol, diazoles, exazoles, thiazoles, diazines, oxazines, thiazines. A general knowledge of essential oils, monocycline terpenes, pinene, camphor and citral. A general knowledge of the alkaloids, piperine, cocaine, quinine and papaverine. A general knowledge of the synthetic drugs and synthetic dyes; stereo chemistry of carbon, nitrogen and sulphur. A general knowledge of the principles of organic analysis, wood distillation, fermentation distillation of coal-tar, theory of dyeing and bleaching.

Practical-

Identification of any of the simpler substances covered in the theoretical syllabus.

Estimation of carbon, hydrogen, nitrogen, halogens and sulphur in organic compounds. Determination of carbon, hydrogen, introgen, halogens and sulphur in organic compounds.

Determination of the molecular weights of organic acids and bases. Preparation of the following substances:—nitro benzene, aniline, acetanilide, sulphanilic acid, ethyl acetate, anthraquinone, phenol-phthalein, p-nitra niline, acetyl chloride, p-amino-azo-benzepe, p-iodot-oluene, benzil, phenylglucosazone, phynyl mustard oil, phithalic acid.

Estimation of the common radicals in organic compounds.

Analysis of oils, fats, soaps, valuation of tannin materials, sugar, starch, phenol.

Inorganic Chemistry.

Classification and mutual relations of all the elements (including the radio-elements

and the study of the elements and their important compounds).

Metallurgy of Copper, Silver, Gold, Iron, Zinc, Lead, manufacture of sulphuric acid, bleaching powder, sodium carbonate, caustic soda, paints and pigments, porcelain, glass, cement, manufacture of fuel gases, calorific value of fuels.

Study of the theory of valency. allotropy, colloids, intermetallic compounds, isotro-

pism, crystalline structure, isomorphism and sotopic elements.

Qualitative analysis of inorganic substances or mixture containing not more than five radicals.

A thorough knowledge of volumetric and gravimetric analysis, including analysis of

minerals and gases.

Preparation of important inorganic compounds, as for example, anhydrous ferric chloride magnesium chloride, potassium persulphate, sodium thiosulphate, cobaltammine colloidal ferric hydroxide, colloidal red gold.

The following books are recommended, the first as text:

Inorganic Chemistry, by T. Martin Lowry.

Rare Elements, by Browning.

 Dictionary of Applied Chemistry, by Thrope.

Practical-

Treadwell-Inorganic Analysis. Bilte-Inorganic Preparations.

B. Sc. PASS.

Physical Chemistry.

Theoretical-

Essential features of chemical and physical change. Laws of chemical combination by weight and volume, Atomic theory, Avogadro's hypothesis and its application, Determination of molecular weights; Diffusion of gases; Elementary knowledge of (1) the kinetic theory of gases, (2) theory of solutions and (3) eletrolytic dissociation theory. Conditions of chemical change and thermal changes accompanying it; Dissociation of gases; Colloidal solutions; Dialysis.

Books recommended as texts:

(1) Introduction to Physical Chemistry, by Sir James Walker,

(2) Physical Chemistry, by G. Senter.

Organic Chemistry.

Theoretical-

General principles of organic analysis. Preparation and properties of the following :-

Methane and ethane and their simple derivatives, viz., haloid derivatives, alcohols, Methane and ethane and their simple derivatives, viz., haloid derivatives, alcohols, ethers, aldehydes, ketones, acids esters; acetyl chloride; acetic anhydride; acetamide; amines cyanogen compounds, ethylene, acetylene, glycol, glycerine, cane-sugar, dextrose, fructose, starch, lactic acid, oxalic acid, citric acid, tartaric acid, urea, benzene and toluene and their simple derivatives, viz., mono-haloid, notro, amino hydroxy and sulphonic acids; Benzyl alcohol, benzaldehyd acetaphenone, benzoic acid, salicylic acid.

Practical-

Identification of the following organic substances given single:—Methyl alcohol, ethyl alcohol, chloroform, ether acetone, formaldehyde, glycerine, formic acid, acetic acid, oxalic acid, tartaric acid, citric acid, cane-sugar, glucose, starch, urea, benzene, aniline, phenol, benzoic acid.

Determination of melting and boiling points of organic compounds. Qualitative detection of the elements present in an organic compound.

Inorganic Chemistry.

Preparation and properties of the following elements and their chief compounds :-Oxygen, Hydrogen, Nitrogen, Argon, Fluorine, Chlorine, Bromine, Iodine, Sulphur, Boron, Carbon, Silicon, Phosphorus, Arsenic, Sodium, Potassium, Calcium, Strontium, Barium, Magnesium, Manganese, Iron Nickel, Cobalt, Tin, Lead, Antimony, Bismuth, Gold, Silver, Copper.

Chemical notation and nomenclature. Interpretation of chemical formulæ. fication and mutual relation of elements. Compound radicals. Double decomposition,

Book recommended :

Mellor-Inorganic Chemistry.

Practical-

Preparation of ferrous sulphate, caustic soda, ammonium carbonate, red lead, potassium permanganate and substances of similar nature.

Qualitative analysis of inorganic substances containing not more than two salt

radicals.

Volumetric estimation of alkalies, alkaline carbonates, acids, iron and silver. Gravimetric estimation of copper sulphate or any similar substance.

DEPARTMENT OF EDUCATION.

B. T. DEGREE AND L. T. DIPLOMA.

Course 1.--Educational Psychology.

I. The relation of Psychology and Education. Description of the nervous system

and its functions. Heredity and Environment.

II. The Instincts. Emotions, Sentiments, the Complex, and the structure of character. The mental development of the child and adolescent. Suggestion, imitation and habit in character formation.

III. Sensation and Perception. Attention. Fatigue. The Problems of Learning. The Motives of Learning. Interest. Play. Memory. Practice. Overpractice. Forgetting. Transference and Interference. Imagery. Association. Imagination and Reasoning. IV. Applications of Psychology to the teaching of school subjects.

* Course 2.—Principles of Teaching.

I. Teaching and Learning.

The influence of the aim of education on methods, curriculum and system of discipline. The cu The curriculum.

The classes. Methods of classification. The problem of individual differences. Various attempts at solution. Modern individualistic tendencies. The class teacher and the specialist.

The Time-Table. Home work and "Teaching how to study ". Private tuition.

General principles of teaching and learning.

Teaching.—The framing of courses. Units of teaching and notes of lessons. Types of lesson. Devices. The teacher's note book and diary.

Learning.—Notes. Practice exercises. Tests. Examinations. Marks. Class

discipline.

The teacher's duties outside the class room; games, occupations, contract with parents and guardians. II. School Organisation.

Supervision and control of teaching, of home work. Tests. Reports. Promotion. The Teachers' conference.

The discipline of the school. The Hostels.

The school office.

III. Methods of teaching the fundamental subjects.

Reading, Writing. Arithmetic, and the elements of other selected subjects.

IV. School Inspection.

Course 3.-History of Education.

Each unit of teaching will consist of :-

A lecture on the history and the present position of the problem. (Printed notes of the lecture will be supplied to students in advance.) 2. An Essay by each student embodying his views on the problem.

3. A formal debate in the class.

(The various sections will be taken up by various members of the staff. For the lectures and discussions outside persons may also be invited.)

I .- Primary Education in Bengal.

(A) History. (B) The Problem of Finance. Compulsion: is it possible? Overlapping of school areas. The responsibility of the Local and of the Central authority. The mechanism of supervision and of control.

Discussion.—A Practical Scheme for the development of Universal Primary Education in Bengal.

II .- Secondary Eduction in Bengal.

(A) History. (B) The Problem of control—the State or the University. What should be the relation of the State to the system? Should zilla and Government schools be abolished? Has the High school usurped the function of the Primary School? Are there too many High Schools? How can the High School be adjusted to meet the needs of special classes? Should class schools be established for the Upper Classes? What type of school is required by the Middle Classes?

Discussion .- Lines of reform in the High School.

III .- The Language Problem in Bengal.

(A) History and review of the problem. (B) The objections to the present system. The objections to vernacularization. Possible middle courses.

Discussion.—The relative positions of English and the vernacular in the educational system of Bengal.

IV .- Vocational and Technical Education in Bengal.

(A) History. (B) Should vocational training take place in the ordinary schools or in special schools? Should it take place in the school at all, or in connection with the factory as a form of "continuation" or part-time" education? If in special Schools or in the Factory, what should the ordinary school do in the matter? What should be the subjects? How can the courses be adjusted to the demands of the labour market? Problems of Finance.

Discussion.—Is Vocational Education practicable in Bengal before the University stage?

V.—University Education in Bengal.

(A) History. (B) Is there too much University Education in Bengal? Is education of the right kind being given; if so, is the right kind of student taking the education which is being given? The standards of examination. Unemployment of Graduates.
Discussion.—Λ practicable policy of University Reform.

VI.—The teaching profession in Bengal and its training.

Educational Notices.

Admission to the Ronaldshay Medical School, Burdwan, Session, 1926-27.

NOTIFICATION.

APPLICATIONS for admission in prescribed form (available from the office of the Superintendent) will be received up to 10th June 1926 or within ten days of the publication of the result of the Matriculation Examination, whichever date is earlier, from the candidates of Burdwan Division.

Applications must be supported by true copies of (a) certificates of passing the matriculation or its equivalent or passing any higher examination, (b) marks obtained at such examination, (c) certificates of good moral character from a Deputy Magistrate or a such examination of equal position or from the Principal or Headmaster of the college or school in which the candidate last studied.

Late or incomplete applications will not be entertained. All the B.A. B.Sc., and I.A., I.Sc. candidates, and all Muhammadan candidates will be required to appear personally before the selection committee with their original certificates on the 18th June at 10-30 A.M. and the Hindu matriculates on the 19th June 1926 at 10-30 A.M. for selection. The Superintendent cannot grant personal interviews to candidates or their relatives.

M. Bomford, M.D., Major, I.M.S.,
Superintendent, Ronaldshay Medical School, Burdwan.

N.B. THIS CANCELS ALL RULES PUBLISHED BEFORE 1925.

The revised scale of fees will take effect from the session 1926-27 and will apply only to the new entrants.

MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

- 1. Two classes of students are admitted for study in the College :-
 - (a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam, Manipur State and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

- 2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.
 - 3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on 5th October and closes on the 31st March.
 - 4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office on or before the 25th May, together with a fee of Rs. 4, which will not be refunded on any account except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province. The candidate from Manipur will be nominated by the Manipur State.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list:—

| | | | Rs. |
|----------------------|-----|-------|---------|
| Admission fee | ••• | | 25 |
| Fees for Summer term | | | 100 |
| Athletic Club fee | | | 4 |
| | | | |
| | | Total | 129 |
| | | | |

^{5.} The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him,

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, six candidates by the Inspector-General, Civil Hospitals, Assam, three candidates of the Dacca University and three candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. One candidate will be nominated by the Manipur State. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

- 6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.
- (b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.
- 7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.
- S. All regular students must pay an annual fee of Rs. 200 in two instalments, viz., Rs. 100 for the Summer term and Rs. 100 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.
- 9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.
 - 10. Female students are not liable to pay the Athletic Club fee.
- 11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 100 for the whole session in one instalment within the time prescribed.
- 12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment;—

| Maria di parte de la color de la color Maria de la color de la co | | alia Ngjarjanina k | | returnation | | Rs. |
|--|----------|-----------------------|-----|--|---|-----|

| For two subjects | | ••• | ••• | ************************************** | | 50 |
| For three or more | subjects | Sp. G. Olf. V | | an de la | | 75 |

- 13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.
- 14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.
- 15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.
- 16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.
- 17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

- 18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.
- 19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 200 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as regular students.
 - 20. The following is the curriculum of the College:-

Regular students.

First year (one Summer term and one Winter term).

Physics, Chemistry, Botany, Zoology, and Practical classes in all these subjects; Test examination in all the subjects will be held during the course of the first year classes, and the students who fail in these examinations will not be sent up for the Preliminary Scientific M. B. Examination. Those students who are sent up for the Preliminary Scientific M. B. Examination but fail twice in one year in the said examination will be transferred to the Membership course of the State Medical Faculty of Bengal after the second chance.

N.B.—The first year's course also includes Anatomy in which there will be a class test examination during the course, upon which will depend the promotion of a student to the second year class.

Second year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Practical Pharmacy and Dissections to be followed by examinations for award of College scholarships with class examination during the course. Students failing to pass the class examination in Anatomy will not be eligible for any scholarship and will not be promoted to the third year class.

Third year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Organic Chemistry, Dissections and Practical classes in Physiology and Organic Chemistry with the usual class examination in the above subjects for scholarships, medals and certificates of honour of the College. Students who fail four times in two years at the First M. B. Examination will not be allowed to go on with the M. B. course, but they may take up the Membership course of the State Medical Faculty of Bengal.

N.B.—Both in Preliminary Scientific M. B. and First M.B. Examinations "failure" means and includes "failure to pass" and "failure to appear".

Fourth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Pathology, Medical Jurisprudence, Hygiene, Dental Surgery, Hospital Practice (12 months), Clinical Methods and 20 Demonstrations, Practical Surgery and Bandaging and 30 Demonstrations, with class examinations at intervals in all the subjects.

Fifth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Hygiene, Ophthalmic Surgery, Operative Surgery, Mental Disease, Practical Pathology and Bacteriology, Practical Midwifery and 20 Demonstrations, Hospital Practice (12 months) with class examinations at intervals in all the subjects.

Sixth year (one Summer term and one Winter term).

Medicine, Special Classes and Hospital Practice (12 months), to be followed by the Final M.B. Examination.

- 21. The following are the scholarships and rewards obtainable by stadents :-
 - (a) Ten College scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the result of the Test and Scholarship examinations at the end of the first year class, provided such students also pass the Preliminary Scientific M. B. Examination of the Calcutta University at the first attempt.
 - (b) Ten College scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the results of the second year's Scholarship and Test examinations.
 - (c) Ten scholarships of Rs. 12 each, tenable for three years, together with free tuition, are awarded to ten students on the results of the Scholarship and Test examinations of the third year class, provided such students also pass the First M. B. Examination of the Calcutta University.

Note.—Only students of Bengal are allowed to compete for these scholarships. Forty percent, is the pass mark of the class examination, but 60 per cent, in aggregate must be obtained by a candidate to be eligible for a scholarship. All scholarships are granted subject to good conduct and satisfactory progress.

- (d) Six Government scholarships (one for each year) of the value of Rs. 25 will be awarded to the female students of the regular class who do not get the Dufferin or other scholarship.
- (e) Mohsin scholarships-
 - Six stipends of the value of Rs. 15 each, tenable in the Medical College, Calcutta, are annually awarded by the Director of Public Instruction from the Mohsin Endowment Fund to deserving poor Bengali Muhammadan students in the following manner:—

Two scholarships on admission, tenable for one year only, on the result of the I. Sc. Examination.

Two scholarships, tenable for two years, on the result of the Preliminary Scientific M. B. Examination.

Two scholarships, tenable for three years, on the result of the First M. B. Examination.

- (f) A limited number of stipends will be granted to Muhammadan students of straitened circumstances who must prove to the satisfaction of the Principal that they are poor deserving Bengali Muhammadan students.
- 22. If on account of the death, resignation or dismissal of any College scholar, a scholarship falls vacant, such scholarship will be awarded to the next best student in the list of the last Scholarship examination, or to such other student as the Principal may consider fit.

- 23. Holders of the College scholarships, any other Government scholarship or Trust Funds scholarships administered by Government are not eligible for the Durga Charan Laha Scholarship. Similarly, a student already holding a scholarship, either on the result of the University examination or granted by Government, is not eligible to compete for the College scholarships.
- 24. Regular students, who at any time are referred for a second year of study in all the subjects of one curriculum, are thereby rendered ineligible for any of the stipendiary scholarships awarded by the Government of Bengal. They are, however, eligible for the special scholarships and class prizes and medals and certificates of honour of the College.
- 25. Certificates of honour, to the number of three in each subject, may be awarded by the Professor, subject to the sanction of the Principal, to such students who have not obtained the medal but are deemed worthy of it.
 - 26. The following is the list of prizes and special scholarships :-

N.B. THIS CANCELS ALL RULES PUBLISHED BEFORE 1925.

The revised scale of fees will take effect from the session 1925-27 and will apply only to the new entrants.

MEDICAL COLLEGE OF BENGAL.

Rules for the guldance of students seeking admission.

- 1. Two classes of students are admitted for study in the College :-
 - (a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam, Manipur State and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

- 2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.
- 3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on 5th October and closes on the 31st March.
- 4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office on or before the 25th May, together with a fee of Rs. 4, which will not be refunded on any account except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province. The candidate from Manipur will be nominated by the Manipur State.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list:—

| | ga ta da gagaga sancara A - kasa da yaraban yaik | | Rs. |

| | | | |

^{5.} The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, six candidates by the Inspector-General, Civil Hospitals, Assam, three candidates of the Dacca University and three candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. One candidate will be nominated by the Manipur State. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

- 6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.
- (b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.
- 7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.
- 8. All regular students must pay an annual fee of Rs. 200 in two instalments, viz., Rs. 100 for the Summer term and Rs. 100 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.
- 9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.
 - 10. Female students are not liable to pay the Athletic Club fee.
- 11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B, and the First M.B. Examinations shall pay Rs. 100 for the whole session in one instalment within the time prescribed.
- 12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment:—

| en in popular de la de desir. | an et energe Era sella en | arigidayee ee do Soo daabaada | e grand tention Charles Silver | i a neda magneta | | Rs. |

- 13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.
- 14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.
- 15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.
- 16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.
- 17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

- 18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.
- 19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 200 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as regular students.
 - 20. The following is the curriculum of the College :-

Regular students.

First year (one Summer term and one Winter term).

Physics, Chemistry, Botany, Zoology, and Practical classes in all these subjects; Test examination in all the subjects will be held during the course of the first year classes, and the students who fail in these examinations will not be sent up for the Preliminary Scientific M. B. Examination. Those students who are sent up for the Preliminary Scientific M. B. Examination but fail twice in one year in the said examination will be transferred to the Membership course of the State Medical Faculty of Bengal after the second chance.

N.B.—The first year's course also includes Anatomy in which there will be a class test examination during the course, upon which will depend the promotion of a student to the second year class.

Second year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Practical Pharmacy and Dissections to be followed by examinations for award of College scholarships with class examination during the course. Students failing to pass the class examination in Anatomy will not be eligible for any scholarship and will not be promoted to the third year class.

Third year (one Summer term and one Winter term).

Anatomy, Physiology, Materia Medica, Organic Chemistry, Dissections and Practical classes in Physiology and Organic Chemistry with the usual class examination in the above subjects for scholarships, medals and certificates of honour of the College. Students who fail four times in two years at the First M. B. Examination will not be allowed to go on with the M. B. course, but they may take up the Membership course of the State Medical Faculty of Bengal.

N.B.—Both in Preliminary Scientific M. B. and First M.B. Examinations "failure" means and includes "failure to pass" and "failure to appear".

Fourth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Pathology, Medical Jurisprudence, Hygiene, Dental Surgery, Hospital Practice (12 months), Clinical Methods and 20 Demonstrations, Practical Surgery and Bandaging and 30 Demonstrations, with class examinations at intervals in all the subjects.

Fifth year (one Summer term and one Winter term).

Medicine, Surgery, Midwifery, Hygiene, Ophthalmic Surgery, Operative Surgery, Mental Disease, Practical Pathology and Bacteriology, Practical Midwifery and 20 Demonstrations, Hospital Practice (12 months) with class examinations at intervals in all the subjects.

Sixth year (one Summer term and one Winter term).

Medicine, Special Classes and Hospital Practice (12 months), to be followed by the Final M.B. Examination.

- 21. The following are the scholarships and rewards obtainable by students :-
 - (a) Ten College scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the result of the Test and Scholarship examinations at the end of the first year class, provided such students also pass the Preliminary Scientific M. B. Examination of the Calcutta University at the first attempt.
 - (b) Ten College scholarships of Rs. 12 each, tenable for one year, together with free tuition, are awarded to ten students on the results of the second year's Scholarship and Test examinations.
 - (c) Ten scholarships of Rs. 12 each, tenable for three years, together with free tuition, are awarded to ten students on the results of the Scholarship and Test examinations of the third year class, provided such students also pass the First M. B. Examination of the Calcutta University.

NOTE.—Only students of Bengal are allowed to compete for these scholarships. Forty percent, is the pass mark of the class examination, but 60 per cent, in aggregate must be obtained by a candidate to be eligible for a scholarship. All scholarships are granted subject to good conduct and satisfactory progress.

- (d) Six Government scholarships (one for each year) of the value of Rs. 25 will be awarded to the female students of the regular class who do not get the Dufferin or other scholarship.
- (e) Mohsin scholarships-
 - Six stipends of the value of Rs. 15 each, tenable in the Medical College, Calcutta, are annually awarded by the Director of Public Instruction from the Mohsin Endowment Fund to deserving poor Bengali Muhammadan students in the following manner:—
 - Two scholarships on admission, tenable for one year only, on the result of the I. Sc. Examination.
 - Two scholarships, tenable for two years, on the result of the Preliminary Scientific M. B. Examination.
 - Two scholarships, tenable for three years, on the result of the First M. B. Examination.
- (f) A limited number of stipends will be granted to Muhammadan students of straitened circumstances who must prove to the satisfaction of the Principal that they are poor deserving Bengali Muhammadan students.
- 22. If on account of the death, resignation or dismissal of any College scholar, a scholarship falls vacant, such scholarship will be awarded to the next best student in the list of the last Scholarship examination, or to such other student as the Principal may consider fit.

- 23. Holders of the College scholarships, any other Government scholarship or Trust Funds scholarships administered by Government are not eligible for the Durga Charan Laha Scholarship. Similarly, a student already holding a scholarship, either on the result of the University examination or granted by Government, is not eligible to compete for the College scholarships.
- 24. Regular students, who at any time are referred for a second year of study in all the subjects of one curriculum, are thereby rendered ineligible for any of the stipendiary scholarships awarded by the Government of Bengal. They are, however, eligible for the special scholarships and class prizes and medals and certificates of honour of the College.
- 25. Certificates of honour, to the number of three in each subject, may be awarded by the Professor, subject to the sanction of the Principal, to such students who have not obtained the medal but are deemed worthy of it.

Sreegopal Basumallik Fellowship on Vedanta Philosophy.

APPLICATIONS are invited for the appointment of a Lecturer as the Sreegopal Basumallik Fellow on Vedanta Philosophy, of the Calcutta University, for the year 1926.

The lecturer will be required to deliver a course of at least twelve lectures in English in the middle of November or in early part of December 1926, on **Vedanta Philosophy**, dealing specially with the place occupied by the Vedanta in the Philosophical System of the civilised world and of its merits as compared with Western schools of thought. The lecturer must be well conversant with both the Oriental and Occidental Systems of Philosophy.

The honorarium of the lecturer shall be Rs. 4,000.

The lecturer will have to make over to the University a complete copy of his lectures after their delivery. The University has set apart an additional sum of Rs. 1,000 towards the cost of publication of the lectures.

Application for the Fellowship should be submitted to the Registrar in writing on or before the 31st August 1926, together with a synopsis of the lectures proposed to be delivered.

The applications must also be accompanied by a statement of the qualifications of the candidates and the courses of study in Philosophy (Western and Eastern) pursued by them and by two testimonials.

B. K. MUKHERJEA, Secretary, Committee of Legal Education, High Court.

CALCUTTA, the 27th May 1926.

Office of the Principal, Chittagong College.

NOTICE.

It is proposed to celebrate in the Chittagong Government College an "Old Boys' Union Day" once every session. The Principal and the staff request that the old students of this college will be so good as to communicate their names and present address and the period of their connection with the college to the Secretary, College Union, Chittagong College, Chittagong, before the end of June 1926, in order to enable him to issue formal letters of invitation for the occasion.

The success of the function depends upon the co-operation of the old students who are no doubt interested in the institution in which they had their education and where they have to educate their children. It is hoped that they will kindly lend their

assistance in the matter.

K. KHASTGIR,

Professor in charge, Chittagong College.

CHITTAGONG, the 11th May 1926.

NOTICE.

Educational Notices.

Office of the Principal, Chittagong College.

NOTICE.

It is proposed to celebrate in the Chittagong Government College an "Old Boys' Union Day" once every session. The Principal and the staff request that the old students of this college will be so good as to communicate their names and present address and the period of their connection with the college to the Secretary, College Union, Chittagong College, Chittagong, before the end of June 1926, in order to enable him to issue formal letters of invitation for the occasion.

The success of the function depends upon the co-operation of the old students who are no doubt interested in the institution in which they had their education and where they have to educate their children. It is hoped that they will kindly lend their

assistance in the matter.

K. KHASTGIR.

Professor in charge, Chittagong College.

CHITTAGONG, the 11th May 1926.

MAINAMATI SURVEY SCHOOL.

(Survey School Post-office, district Tippera.)

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

AHMAD A. ZAHIR,

District Registrar of Assurances, Calcutta.

CALCUTTA, the 29th December 1925.

Sheriff's Sale Proclamation.

TO be peremptorily sold pursuant to an order of the High Court of Judicature at Fort William in Bengal made in the Ordinary Original Civil Jurisdiction in Suit No. 839 of 1910 (Dooly Chand versus Gobinda Das Pitty) and dated 21st July 1922 by the Sheriff of Calcutta in his sale-room in the Court House on Friday, the 19th February 1926, at 12 o'clock noon, the following property belonging to the defendant judgment debtor.

judgment debtor.

All that partly two-storied and partly one-storied messuage or dwelling house together with the piece or parcel of land thereunto belonging and in part whereof the same is erected and built containing by estimation 15 cottahs more or less and known as No. 1, Shyam Square East (formerly No. 16-1, Ram Kanta Bose's Street), in Sootancoty in the Northern Division of the town of Calcutta and butted and bounded as follows:—On the north by the premises No. 2, Shyam Square East (formerly No. 16-1-1, Ram Kanta Bose's Street), on the east partly by the house and premises No. 110, Shyam Bazar Street and partly by the house now or formerly of Babus Radha Raman Kar and Radha Gobinda Kar and partly by the house now or formerly of Akshoy Charan Mukherjee and on the south and west by a public road.

From searches made in the office of the Registrar of Assurances, Ualcutta, from the year 1865 to the 20th day of April 1923, it appears that the abovenamed property is subject to the following encumbrances:—
